

**New Tange Shockblades...
An affordable high-performance
suspension fork from the future.**

The next generation in suspension fork technology from Tange. Shockblades offer a dramatically improved ride and enhanced control to the mountain bike. Utilizing the best materials and known Tange quality, Shockblades deliver exceptional shock absorbing performance at a price that won't stress your budget. Hard anodized alloy fork legs, short and beefy brace, and triple-clamp crown* are mated to a replaceable chrome-moly stem. Maintenance-free micro-cellular urethane elastomers provide years of trouble-free service without aging or fatigue.

Made in USA.
