

MODOLO BRAKESETS

Master Pro

The "Top of the Line" brakeset preferred by Hinault, Fignon, LeMond and the list goes on.

Materials: Special alloy 55 kg/mm² traction, tempered & forged.

Sizes: Compact 40-52.

Equipe

From the master it takes its classical looks, anodized anthracite grey finish with white detail, the synthesized D-0015 blocks. The finish is done with care and the anatomical hoods are white. The calipers are forged, handbrushed and completely precision made.

Materials: Light special alloy 40 kg/mm² traction, forged and tempered.

Sizes: Compact 40-52.

Speedy

The blocks in this series are D-0015, the handrest are anatomical in natural color, the calipers in light alloy are precision manufactured and hand brushed, and the levers are pantographed.

Materials: Light special alloy 40 kg/mm² traction, forged & tempered.

Sizes: Compact 40-52 and Standard 46-58. Available in black and silver finish.

Flash

Sporting forged calipers totally machine tooled, guaranteeing stability and precision you've come to expect in all Modolo Brakes. They come with satin anodized finish, also with anatomical lever hoods and synthesized brake blocks like the more expensive models.

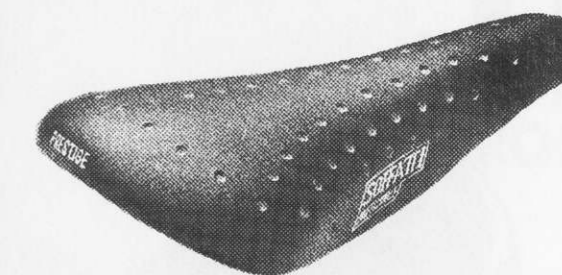

Size: Standard 46-58mm

Silver anodized finish only.

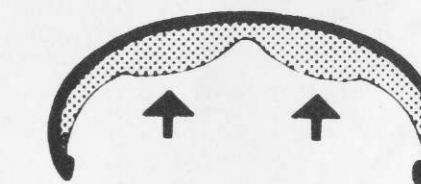

Equipe and speedy levers available separately.

We also have Modolo Anatomical lever hoods by the pair in: black, white, grey, and natural rubber. The D-0015 Synthesized powder brake blocks with wheel guides that give you long wear and shorter stopping distance on both wet and dry surfaces.

ASH replacement lever hoods campagnolo type, fits most levers are now in stock in natural rubber.

Soffatti anatomic cover in buffalo, perforated
